CLAIMS

1. (Proposed Amendment) A method performed by a computer comprising:

referencing one or more multimedia objects through a first set of one or more elements;

associating the first set of one or more elements with a second set of one or more elements by referencing at least a portion of the first set of one or more elements; and

arranging the second set of one or more elements to indicate timing for the multimedia objects referenced by the first set of one or more elements.

19. (Previously Presented) A method performed by a computer comprising:

referencing one or more multimedia objects through a first set of one or more elements in a first document;

associating the first set of one or more elements in the first document to a second set of one or more elements in a second document; and

arranging the second set of one or more elements of the second document to indicate timing for the multimedia objects referenced by the first set of one or more elements in the first document.
